Travel with the peace of mind without surprises.

Notis

NOTIS

Notis is an app for business travellers who have to fly frequently to meet their clients and don't want surprises on their journey.

It takes care of the journey door-to-door and gives alerts whenever there is any disruption.

Notis
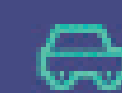

Hello There!

Start planning your next trip.

+ Add new journey

Office address
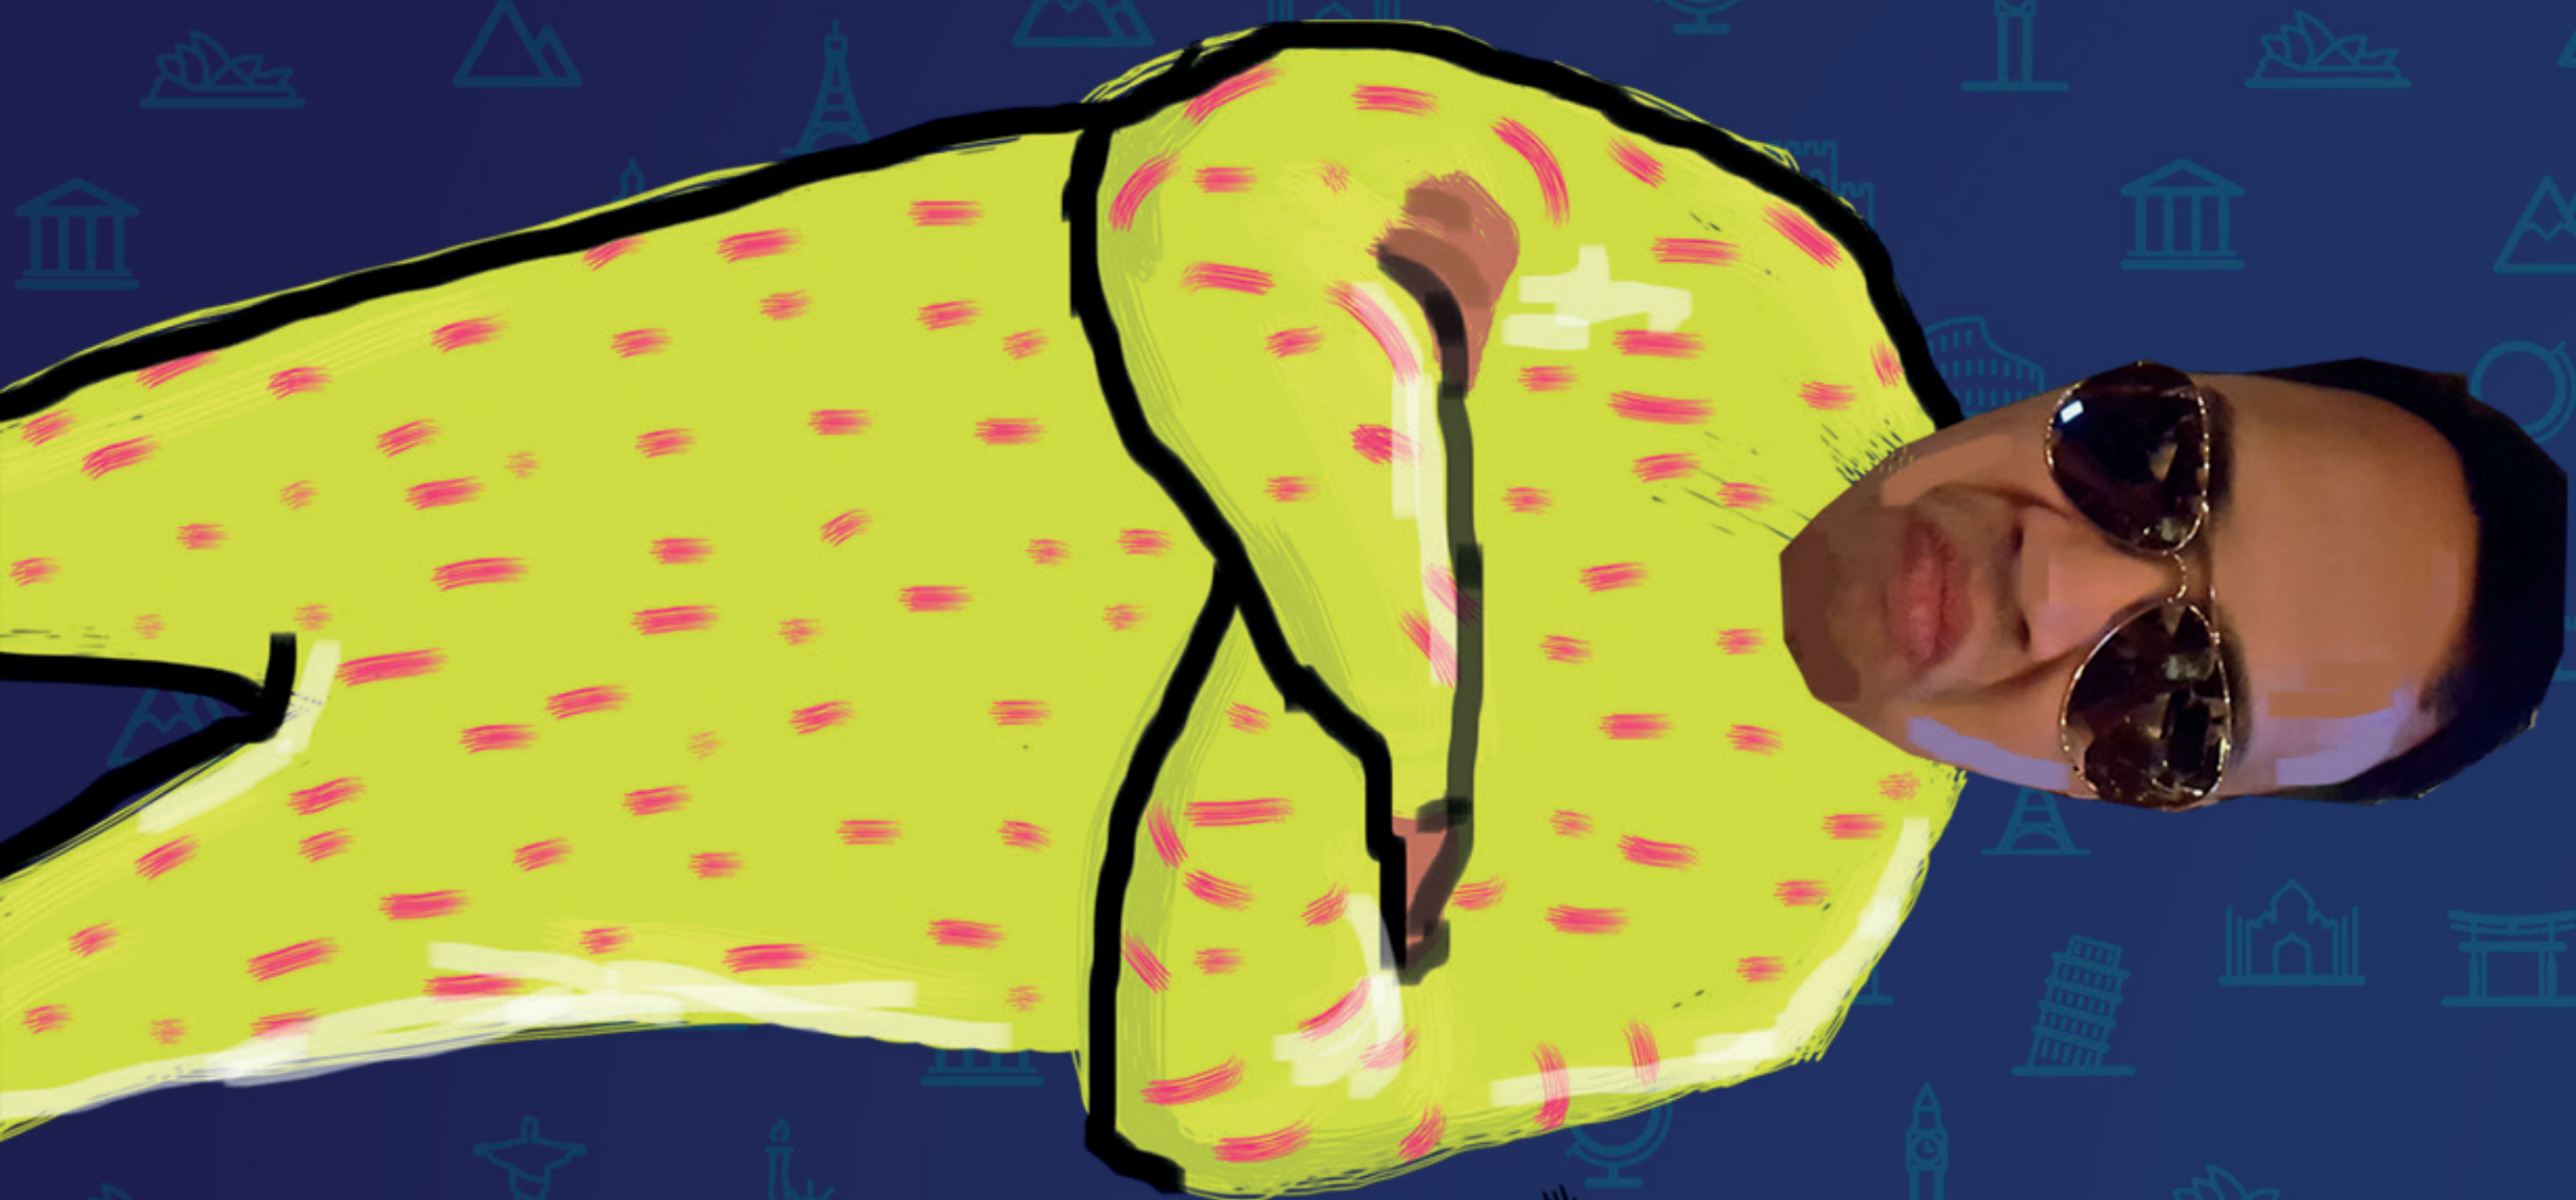

Choose flight

or   Flight number

Destination address

You can log in with your Google account, then add a trip. If you got your flight ticket to your email account you can automatically add it here.

This app has been developed and designed from scratch in 48 hours at the Allianz HackRisk hackathon.
We used Google Account, Calendar, Amadeus and Allianz APIs.
